

```
1 // 9.1
2 #include <stdio.h>
3
4 int main(void)
5 {
6     char name[101];
7     gets(name);
8
9     printf("ASCII values of each character are:\n");
10    for(int i=0; name[i] != '\0'; ++i){
11        printf("\'%c\' -> %d\n", name[i], name[i] );
12    }
13
14    return 0;
15 }
16
17
```
